Carr-Saunders and Wilson 1933) made the (first comprehensive attempt to analyse professions, and their work has since come to be regarded as a standard history of

The role of a professional body in professionalisation

The use of effective communication among patients and healthcare professionals is critical for achieving a patient's optimal health outcome. However, according to the Canadian Patient Safety Institute, ineffective communication has the opposite effect as it can lead to patient harm. Communication with regards to patient safety can be classified into two categories: prevention of adverse events ...
