a linguistic description and pdf

In the study of language, description or descriptive linguistics is the work of objectively analyzing and describing how language is actually used (or how it was used in the past) by a group of people in a speech community.. All academic research in linguistics is descriptive; like all other scientific disciplines, its aim is to describe the reality as it is, without the bias of preconceived ...

Linguistic description - Wikipedia

Neuro-linguistic programming (NLP) is an approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States in the 1970s. NLP's creators claim there is a connection between neurological processes (neuro-), language (linguistic) and behavioral patterns learned through experience (programming), and that these can be changed ...
