In 1978 and 1979, lawyer and First Lady of Arkansas Hillary Rodham Clinton engaged in a series of trades of cattle futures contracts. Her initial \$1,000 investment had generated nearly \$100,000 when she stopped trading after ten months. In 1994, after Clinton had become First Lady of the United States, the trading became the subject of considerable controversy regarding the likelihood of such a ...

Algorithmic trading is a method of executing a large order (too large to fill all at once) using automated pre-programmed trading instructions accounting for variables such as time, price, and volume to send small slices of the order (child orders) out to the market over time. They were developed so that traders do not need to constantly watch a stock and repeatedly send those slices out manually.
