Beef aging (American English) or ageing is a process of preparing beef for consumption, mainly by breaking down the connective tissue

### **Beef aging - Wikipedia**

Ageing or aging (see spelling differences) is the process of becoming older. The term refers especially to human beings, many animals, and fungi, whereas for example bacteria, perennial plants and some simple animals are potentially biologically immortal. In the broader sense, ageing can refer to single cells within an organism which have ceased dividing (cellular senescence) or to the ...
