Alcohol | National Institute on Drug Abuse (NIDA)

Addiction is a brain disorder characterized by compulsive engagement in rewarding stimuli despite adverse consequences. Despite the involvement of a number of psychosocial factors, a biological process “one which is induced by repeated exposure to an addictive stimulus” is the core pathology that drives the development and maintenance of an addiction.

Addiction - Wikipedia

Alcoholism, also known as alcohol use disorder (AUD), is a broad term for any drinking of alcohol that results in mental or physical health problems. The disorder was previously divided into two types: alcohol abuse and alcohol dependence. In a medical context, alcoholism is said to exist when two or more of the following conditions are present: a person drinks large amounts over a long time ...
