The BCIT Master of Applied Science (MASc) in Building Engineering/Building Science is a two-year, full-time graduate degree designed to provide students with the capabilities to independently conduct rigorous, innovative research and publish, present and defend research outcomes to expert peers. Courses in the first year provide students with advanced knowledge and skills to achieve a holistic ...

Measurement of Power Single-Phase Three-Wire System (Split Phase) The voltage and current detected by the METERS are the voltage and current applied directly to the Load. The indication on EACH METER is the power being delivered by the LINE to which the meter is connected.

### **Fundamentals of Electrical Power Measurement**

Engineering is the creative application of science, mathematical methods, and empirical evidence to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations for the benefit of humankind. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more ...
