In physics, spacetime is any mathematical model that fuses the three dimensions of space and the one dimension of time into a single four-dimensional continuum. Spacetime diagrams can be used to visualize relativistic effects such as why different observers perceive where and when events occur.. Until the turn of the 20th century, the assumption had been that the three-dimensional geometry of ...

Recent updates: November 2018: Extended the chapter on phase and spectral analysis in the Basic Doppler ultrasound section.. October 2018: The concept of strain as a simultaneous deformation in three dimensions, and the explanation that the three normal strains are coordinates in three dimensions of this deformation (components of the 3-dimensional strain tensor), has been extended both in the ...

In problems concerning gravity on earth the acceleration (a) becomes approximately 9.8 meters per second squared (a). An object that starts from rest falls for one second at a speed of 9.8 m/s. After 2 seconds the speed is 19.6 m/s and after 3 seconds it is 29.4 m/s.

Variceal Screening. Varices are present in 30 to 40% of patients with compensated cirrhosis and in 60 to 85% of patients with decompensated cirrhosis (at the time of diagnosis of cirrhosis). [] Since untreated varices have a significant risk of bleeding, it is important to determine who should undergo screening endoscopy to diagnose varices.
