body language learn all pdf

Body language is a type of nonverbal communication in which physical behavior, as opposed to words, are used to express or convey information. Such behavior includes facial expressions, body posture, gestures, eye movement, touch and the use of space. Body language exists in both animals and humans, but this article focuses on interpretations of human body language.

Body language - Wikipedia

Nonverbal Communication Reading Body Language and Improving Your Nonverbal Skills. While the key to success in both personal and professional relationships lies in your ability to communicate well, it's not the words that you use but your nonverbal cues or "body language" that speak the loudest.

What Every Body Is Saying: An Ex-FBI Agent's Guide to

The study of language, linguistics, has been developing into a science since the first grammatical descriptions of particular languages in India more than 2000 years ago, after the development of the Brahmi script. Modern linguistics is a science that concerns itself with all aspects of language, examining it from all of the theoretical viewpoints described above.
