

globalization and popular music pdf

This study offers a cross-national multilayered analysis of music flows between 1960 and 2010. Advancing on previous empirical studies of cultural globalization, it attends to the global and country level, while adding the individual level of music flows.

The Globalization of Popular Music, 1960-2010: A

All in all, the change in pop music industry is not the result of globalization; it is one aspect of the globalization. Globalized pop music is a system which combines both society and economy. Although pop music expands new world market and develops new music style, the expansion of popular music starts to challenge local music's identity.

Globalization | Popular Music
